

What services do we offer?

The Remedy team consists of psychiatric specialists available over telehealth for in-depth psychiatric evaluations, diagnosis and ongoing medication management treatment for patients living in California.

What age groups do we support?

Children aged 6-12 ● Teenagers aged 13-17 ● Adults aged 18 and above

What mental health concerns do we treat?

Our team of specialists treat mental health concerns such as anxiety, depression, ADHD, bipolar disorder, OCD and more, from the comfort of your own home via video. For a **complete list of mental health treatment services**, visit our website at www.remedypsychiatry.com/treatment-services/.

How Does Remedy Work?

1 Book Appointment

Easily book your first appointment online by choosing a provider on our website.

2 Plan Treatment

Receive an online psychiatric evaluation and treatment plan with your provider.

3 Get Better

Continue with medication management video appointments, provider messaging and monthly symptom tracking from the comfort of your home.
